Final Workshop

DNA Methylation: from Biology to Disease

Manel Esteller, M.D., PhD,
Cancer Epigenetics and Biology Program (PEBC)
Bellvitge Institute for Biomedical Research (IDIBELL)
Barcelona, Spain
"DNA Methylomes in Health and Disease"

François Fuks, PhD,
Cancer Epigenetics Group, Faculty of Medicine
Université Libre de Bruxelles, Belgium
"Mechanisms of Epigenetics in Health and Disease"

Femke Simmer, PhD,
Department of Molecular Biology
Radboud University, Nijmegen, The Netherlands
"DNA methylation profiling of cancer"

Lucia Altucci, M.D., PhD,
Department of General Pathology
Seconda Università degli Studi di Napoli, Italy
"Prognostic tools for HDAC inhibitors based regimes in Acute Myeloid leukemia patients"

Christoph Bock, PhD,
Broad Institute, Cambridge, USA
Max Planck Institute for Informatics, Saarbrücken, Germany
"Bioinformatic methods for epigenome-wide association studies (EWAS) and biomarker development"

Wednesday, June 29th, 2011

Hospital Duran i Reynals, ICO Auditorium Barcelona, Spain
